STEP 01

DOWNLOAD THE APP

Open the App Store or Google Play and search "ATA Carnet".

The app appears as one of the top results - see the screenshot for reference.

Download it and you're ready to go.

01

STEP 02

CREATE YOUR ACCOUNT

When you first open the app, the landing page shows the log in option. Tap log in and you'll be taken to the chamber site to create an account or sign in.

Follow the steps to create an account with your own email address.

You'll be asked to verify your email and complete your account details - please use your own personal details.

02

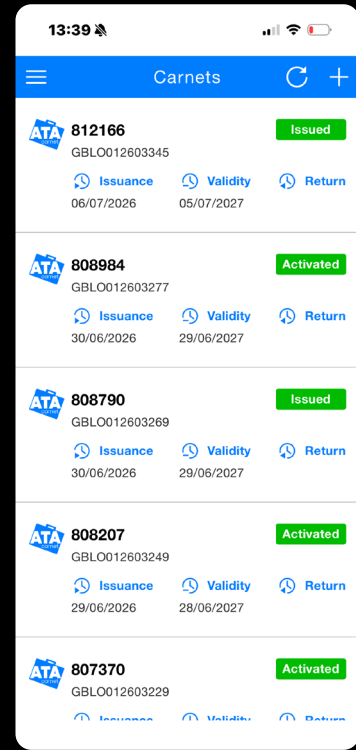

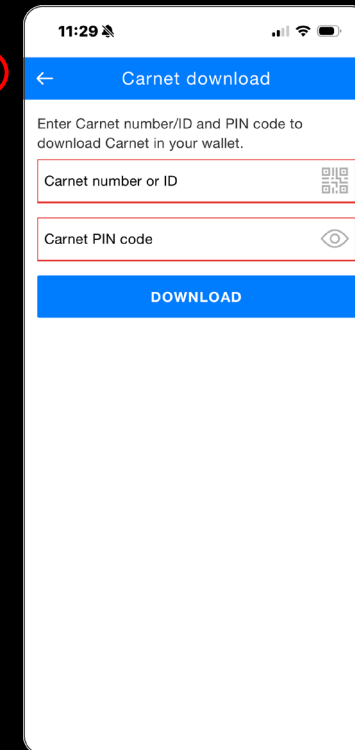

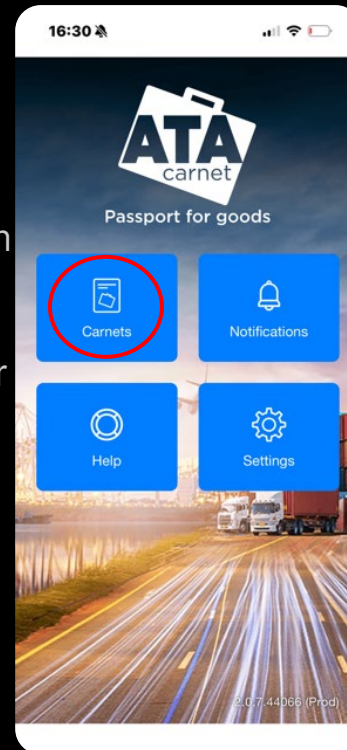

STEP 03

ADD YOUR CARNET

Tap the Carnet tile, then the plus at the top right of the screen.

Enter the carnet number or ID provided by Production Freight in the first box, and the PIN code we've given you in the second.

Tap download and your carnet opens. Every carnet on your account is listed here - when you're ready to create vouchers, tap the one you want to use.

03

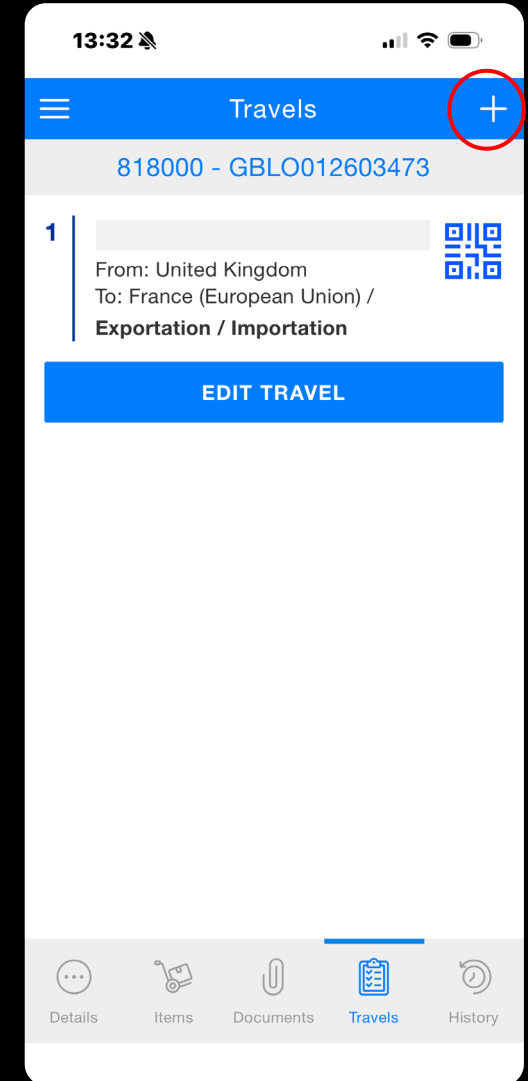

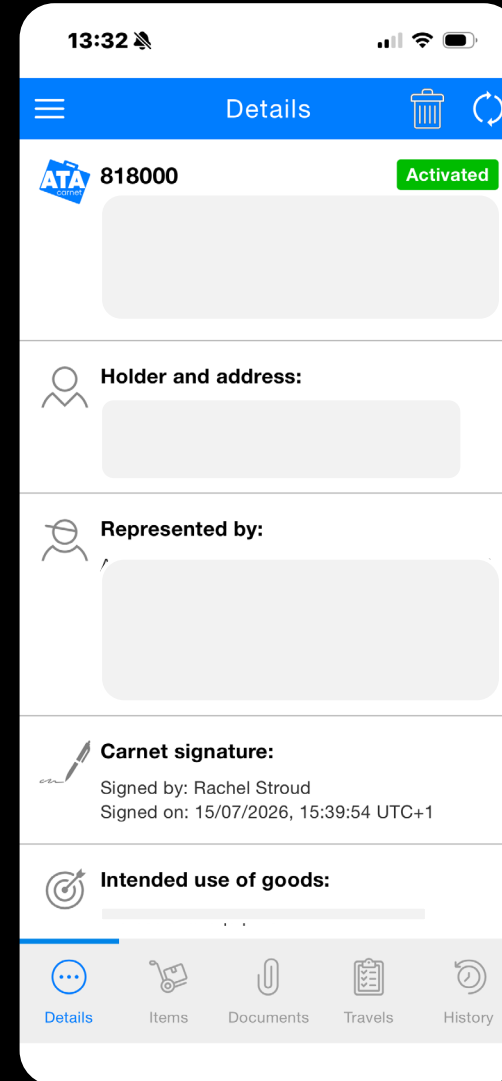

STEP 04

OPEN YOUR TRAVELS

Your carnet opens on the details tab, which holds all the key information - a little like the front page or green validation of a paper carnet.

Tap the 'Travels' tile on the bottom row. This opens the page where you create your voucher.

04

STEP 05
